DETAILED ACTION

1. The location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1644, Group 1640, Technology Center 1600.

2. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-4, drawn to methods of co-administering a thrombolytic compound and an anti-CD18 antibody, classified in Class 424, subclasses 94.63 and 130.1.

II. Claims 5-12, drawn to methods of treating acute myocardial infarction by administering a thrombolytic compound and an anti-CD18 antibody, classified in Class 424, subclasses 94.63 and 130.1.

III. Claim 13-16 drawn to methods of increasing blood flow in an infarct related artery by administering an anti-CD18 antibody, classified in Class 424, subclasses 94.63 and 130.1.

IV. Claims 17-20, drawn to methods of reducing infarct size by co-administering a thrombolytic compound and an anti-CD18 antibody, classified in Class 424, subclasses 94.63 and 130.1.

3. Inventions I-IV are different methods, which can require different ingredients, process steps and endpoints. Therefore, they are patentably distinct.

Alternatively, applicant is invited to indicate whether the claimed methods are obvious in view of one another.

4. Because these inventions are distinct for the reasons given above and the search required for any group from Groups I-IV is not required for any other group from Groups I-IV and Groups I-IV have acquired a separate status in the art as shown because the searches are not co-extensive and encompass divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
